BIO

Boston Switch is a drum and bass producer and DJ based in Bali. Before the decks he was a pro free surfer and a surf guide in the Mentawai Islands; since then he has played more than 100 festivals, including Stereosonic and Future Music, and played across Europe, Asia and the Pacific. His sets start where the crowd is and finish at a drum and bass peak.

> *"He had the steadily growing crowd amped from the onset … a myriad of favourites without sounding like a dated top 40 house party."*
>
> THE AU REVIEW · FUTURE MUSIC FESTIVAL, PERTH · 2015

> *"Fast-forward a few years and he was facilitating and performing at huge festivals and venues around the world."*
>
> MANDURAH MAIL · 2023

> *"The crowd was just totally switched on and it was like a mini festival."*
